DARGEWITZ composites

PRODUCT DATA SHEET

FINNED ROLLER BARREL

The barrel finned roller complements the straight finned roller for curved and contoured areas within the laminate layup.

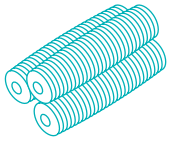

The barrel shape avoids localized pressure points, ensuring reliable de-airing even in complex geometries.

Our roller frame is a practical addition.

+ Pure plug system instead of screwing – only the roller is replaced when worn
+ Rollers made of POM – robust, wear-resistant and chemical-resistant
+ Barrel form – specifically for curved areas
+ Complements the straight finned roller
+ Avoids localized pressure points

Finned Roller barrel						
Item No.	Size	PU	Roller Material	D1	L1	R
ER-18-75-B500-01	18 × 75 mm	Individually/Piece by piece	POM	18 mm	75 mm	500 mm

Refill rolls “barrel” in **packs of 25** available.
