DARGEWITZ composites

PRODUCT DATA SHEET

FINNED ROLLER STRAIGHT

The straight finned roller is used for even rolling and de-airing of laminate layups in composite manufacturing. Its straight form is particularly suited to large, flat surfaces.

The roller simply plugs onto the frame – it is not screwed on. If worn, only the roller itself needs to be replaced; the frame remains in use.

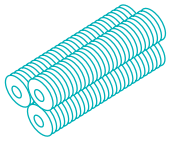

Our roller frame is a practical addition.

+ Pure plug system instead of screwing – only the roller is replaced when worn
+ Rollers made of POM – robust, wear-resistant and chemical-resistant
+ Straight form – ideal for large, flat surfaces
+ Frame can also be used with conventional paint rollers

Finned Roller straight

Item No.	Size	PU	Roller Material	D1	L1
ER-18-50-01	18 × 50 mm	Individually/Piece by piece	POM	18 mm	50 mm
ER-18-75-01	18 × 75 mm	Individually/Piece by piece	POM	18 mm	75 mm
ER-18-100-01	18 × 100 mm	Individually/Piece by piece	POM	18 mm	100 mm

Refill rolls “straight” in **packs of 25** available.
