DARGEWITZ composites

PRODUCT DATA SHEET

LINE CLAMP

The line clamp is used for securely clamping off hose lines during the infusion process and enables precise control of resin flow.

It is suitable both for shutting off a line completely and for targeted de-airing of resin lines.

+ Secure clamping of lines during the infusion process
+ Precise control of resin flow
+ Easy and reliable venting of resin lines
+ Robust combination of plastic and metal

Line Clamp

Item No.	Ø-Hose	PU	D1
SKB-15-01	up to 15 mm	Individually/Piece by piece	15 mm
SKB-25-01 Soon	up to 25 mm	Individually/Piece by piece	25 mm
