DARGEWITZ composites

PRODUCT DATA SHEET

PREPREG TOOLS

Our prepreg tools are specifically developed for working with prepreg materials. They make it easier to press down and smooth out prepreg layers evenly.

The smooth surface prevents sticking to the tool and protects the prepreg from damage during processing.

We offer four variants:

1. Half-round
2. Round
3. Rectangular
4. DIY version

+ Light, easy to grip for efficient working
+ Smooth surface protects the prepreg from damage
+ Chemical-resistant to release agents and resins
+ Made of robust polypropylene (PP)
+ Available in four geometries

Prepreg Tools

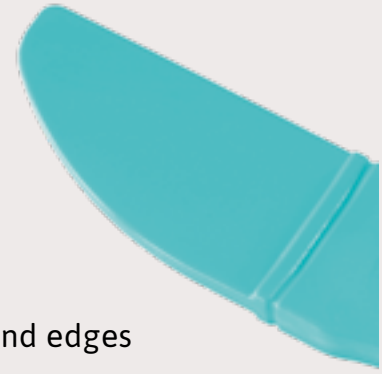

Item No.	Variants	PU	Material	L1	L2	B1
PTHR-01	Half-round	Individually/Piece by piece	PP	190 mm	55 mm	30 mm
PTRU-01	Round	Individually/Piece by piece	PP	190 mm	55 mm	30 mm
PTRE-01	Rectangular	Individually/Piece by piece	PP	190 mm	55 mm	30 mm
PTDY-01	DIY-version	Individually/Piece by piece	PP	190 mm	55 mm	30 mm

PRODUCT DATA SHEET PREPREG TOOLS

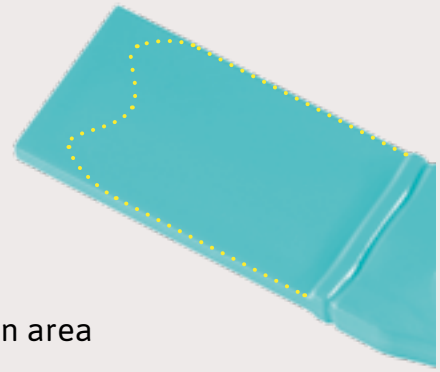

Half-round
for smooth
transitions and edges

Round
for localized pressing
and complex geometries

Rectangular
for flat surfaces
and larger layups

DIY-version
adaptable to
any application area
