DARGEWITZ composites

PRODUCT DATA SHEET

TEE HOSE CONNECTOR

The tee hose connector joins three hose lines in a T-shape, enabling flexible branching within an infusion or vacuum setup.

Its robust construction ensures a tight, reliable connection even with frequent assembly and disassembly.

+ T-shaped branch for three hose lines
+ Material: POM – chemical-resistant, dimensionally stable
+ Media: epoxy and polyester resin
+ Temperature: -40 °C to +90 °C, briefly +110 °C*

* The temperature resistance depends on the specific application and medium. The customer is responsible for verifying the suitability of the product under their individual operating conditions.

Tee Hose Connector
